Architecture Research

Finding Full Text Articles in the Library by Journal Title

Below is a citation for an article. To find out if it’s available in another database or in the library, you can search for it using the journal title, found on the Source line - A + U  Architecture & Urbanism

Start at the library homepage - libraires.udmercy.edu

Type the Journal Title into the search box, then search.
• Now we need to know the publication information, which can also be found on the **source line** of the citation.

---

**Farnsworth House.**

- **Language:** Multiple languages
- **Authors:** van der Rohe, Mies (AUTHOR)
- **Document Type:** Architecture Review
- **Subject Terms:** American architecture — 20th century

---

This journal is not available in another database, but it is available in the library. Click the **Available at** link for more information.
Journals cannot be checked out, but they can be photocopied or scanned and then printed out on the color printer.

Older journals can be found on the 2nd floor of the Architecture Collection. Use the call number to find it on the shelf. Make sure you grab the correct volume number.

We need No. 565 from 2017, which can be found on the 2nd floor of the Architecture Collection, with the current journals.
